

## Welding

			8 a.m.			
Date	February 10,2024	Orientation Time	(CLOSED to instructors)			
	Mid-East CTC - Buffalo		Immediately following			
Location	57090 Vocational Road	Contest Time	orientation			
	Senecaville, OH 43780		(CLOSED contest)			
Scope of Contest	The skill performance assessment may include steel project(s), aluminum					
	project(s), stainless steel project(s) in various positions using a variety of filler					
	metals. Competitors will be involved in a series of stations testing various					
	aspects of welding.					
	Competitors must correctly use the welding equipment during the					
	competition. The contest coordinator or any judge may stop a competitor at					
	any section of the competition if they deem a competitor's manner to be					
	hazardous to either themselves or others. Such a stoppage shall be					
	documented as a warning. If the competitor is warned a second time, he or					
	she may be disqualified for that section of the competition.					
	As soon as the competitors enter the competition area, no communication					
	shall occur between the competitors or between the competitors and anyone					
	else, except as directed by the contest coordinator or judges. Any such					
	communication may result in the competitor being disqualified from that					
	section of the competition.					
	Time limits will be established during the competition orientation.					
	Evaluation of the completed project will be judged visually. Nondestructive					
	and/or destructive tests may be used to complete the project evaluation.					
	Welding and cutting instructions will be provided to the competitors and					
	specified on the Welding Procedure Specifications (WPS) and prints provided					
	in the welding booths and near cutting stations.					
	Welding equipment used in the competition may be obtained from a variety					
	of manufacturers and may include transformers, rectifiers and/or inverters.					
	Filler metals will be detailed on the Welding Procedure Specification (WPS)					
	<ul><li>and/or prints.</li><li>Welds will be evaluated visually using a scoring system as established by the</li></ul>					
	contest coordinator. Nondestructive and/or destructive tests may be used to					
	complete the project evaluation.					
	<ul> <li>Print assembly tolerance will be +/- 1/16" unless otherwise noted.</li> </ul>					
	<ul> <li>If no print assembly dimensic</li> </ul>	ons are given to orient	any project part, the part			
	is to be approximately locate	d based on the print's	isometric view.			
Testing	No					
Eligibility	1 contestant for every 50 paid m					
Clothing	Work Attire: Field specific work	- ·				
	that matches the service conditions for the contest. This may include jeans if					
	they are clean and professional	•	•			
	(no holes or overly soiled pants)	. Work shoes or boots	with a hard sole or anti-			

	slip properties (steel toes may be required – refer to <b>Provided by Contestant</b> section below). Clothing should be as such that it will not get caught in moving				
	equipment or power tools. School uniforms may be worn if they meet the above requirements with all identifiers covered.				
Provided by	Professional Resume – Typed Hardcopy				
Contestant	Emergency Medical Form (Contestants must have this to compete)				
	Leather welding jacket				
	Fireproof face mask				
	Hearing and/or ear protection				
	Welding helmet with appropriate filter plate/lens and protective cover				
	plate/lens in a flip or slide front. Auto darkening shields are permissible Spare spatter and filter lenses/plates for arc welding helmet and oxyacetylene				
	goggles				
	Pocket calculator				
	Lead pencil and/or ballpoint pen Soap stone with holder Scribe with magnet Combination square set 10-foot (3.1 meters) steel tape measure Fillet weld gauge 16-ounce (.45 kilogram) ball peen hammer Center punch 10-inch (254 millimeters) vise grips 6-inch (152 millimeters) side cutting pliers or diagonal cutting pliers 6-inch (152 millimeters) needle nose pliers Chipping hammer with or without wire brush Stainless steel wire brush
