

# SkillsUSA Ohio Middle School Creative Sculpture Contest

**Goal:** To use the given Arckit to develop an architectural model.

**Description:** Each group will be given an Arckit. Groups will use the supplies to generate a piece of architecture of their choice. Example designs can consist of but are not limited to a mountain cottage, a coastal house, desert home, any model home. I encourage each group to think freely and build your vision without restrictions.

## **Requirements:**

1. Each group will be required to use their Arckit to create an architectural model.
2. Each group will be required to create a team name that connects to their group. The team's name should reflect on your design. The team's name should also "Connect to Career Success".
3. Each group will be required to participate in an interview with a panel of judges.

-During the interview, groups will be answering questions about their designs and further explaining how their creation represents the name of your group and how it relates to "connects to career success".

- During the presentation students can connect/describe certain skills/careers in architecture, engineering, HVAC, construction, etc... can lead to career success. A visual aid must accompany the presentation. Posterboard and art supplies will be provided.

## **Select advisors will judge the projects based on the following criteria:**

1. Creativity of the architectural model.
2. Explanation of how the team's name connects to career success.
3. Explanation of how the architectural model connects to their team's name and career success.
4. Interview skills.
